Company Profile 2026

CEO Message

“Success is built through dedication, hard work, and a commitment to doing things the right way.”

At Spark Point Technical Services, our mission has always been clear: to deliver reliable, efficient, and high-quality technical solutions that our clients can trust. Dubai is a city built on innovation, safety, and excellence—and these are the same principles we apply to every project we undertake.

With years of experience across real estate, technical operations, and service management in both Sri Lanka and the UAE, I founded Spark Point with a commitment to raise the standards of technical services in the region. From electrical and AC systems to IT, network infrastructure, and electromechanical solutions, we ensure every task is carried out with professionalism, compliance, and accountability.

Our clients are at the heart of what we do. We believe in building long-term relationships based on integrity, transparency, and consistent performance. As Dubai continues to grow, Spark Point will continue to evolve—bringing smarter solutions, stronger capabilities, and a dedicated team that takes ownership of every project.

Thank you for placing your trust in Spark Point Technical Services. Together, we look forward to building safer, smarter, and more sustainable environments across the UAE.

A handwritten signature in black ink, appearing to read 'Shakila Marasinghe', with a long horizontal flourish extending to the right.

MM Shakila Marasinghe

Founder & CEO

Spark Point Technical Services LLC

(RERA Certified Professional - Since 2013)

CEO – Shakya Singhe Real Estate (Pvt) Ltd, Sri Lanka)

Company Overview

Spark Point Technical Services L.L.C is a Dubai-licensed technical solutions provider specializing in Computer Network & Infrastructure Installation, Electromechanical Equipment Installation & Maintenance, and Internal Communication Network Systems.

With a strong commitment to reliability, compliance, and technical excellence, we support residential, commercial, and industrial clients across the UAE in building secure, efficient, and future-ready environments.

Our team combines engineering expertise with modern technology to deliver solutions that meet the highest standards of safety and performance. Whether it is network infrastructure, electromechanical systems, or communication installations, Spark Point ensures precision, accountability, and quality in every project.

Additional Licensed Services:

Although our primary focus is on ICT and electromechanical systems, our commercial license also includes: **Air Conditioning, Ventilation & Air Filtration Systems | Electrical Fittings & Fixtures Repairing & Maintenance Floor & Wall Tiling Works | Wallpaper Fixing Works**

Mission Statement

- ⚡ **To deliver high-quality, cost-effective, and technically** sound solutions in network infrastructure, internal communication systems, and electromechanical installations.
- ⚡ **To integrate advanced technology, engineering expertise,** and strict safety standards into every project.
- ⚡ **To build strong, long-term client relationships** based on integrity, professionalism, and dependable service delivery.
- ⚡ **To contribute to Dubai's growth** by providing smart, sustainable, and efficient technical solutions for modern living and business environments.

Vision Statement

ee

To become a leading provider of ICT, electromechanical, and communication network solutions in Dubai, trusted for our reliability, technical excellence, and commitment to safety. We strive to empower clients with intelligent and efficient infrastructures that support long-term growth and future technological demands.

Core Values

01. Quality & Reliability

- ⚡ We deliver consistent, high-standard technical solutions with zero compromise on quality.

03. Integrity & Transparency

- ⚡ Honesty, ethical operations, and clear communication define our work culture.

05. Innovation & Continuous Improvement

- ⚡ We adapt advanced technologies and modern practices to offer smarter solutions.

02. Safety & Compliance

- ⚡ Every project follows strict safety protocols and UAE regulatory guidelines.

04. Customer-Centric Service

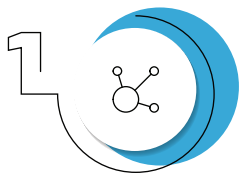

- ⚡ Client satisfaction is at the heart of everything we do.

06. Accountability & Ownership

- ⚡ We stand by our commitments and deliver results with responsibility.

ICT & Telecommunication Services

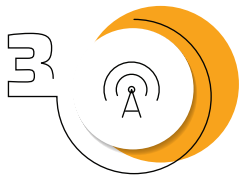

Spark Point Technical LLC, provides a comprehensive portfolio of Information and Communication Technology (ICT) and Telecommunication services, delivering end-to-end technical solutions for corporate, government, and industrial sectors. Our capabilities span design, implementation, integration, and long-term support.

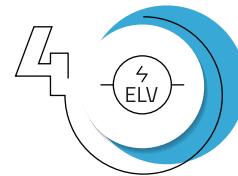

Network Infrastructure & Engineering

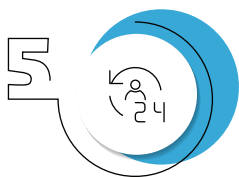

Data Centre & Server Solutions

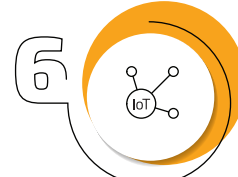

Telecommunication Systems

Extra Low Voltage (ELV) Systems

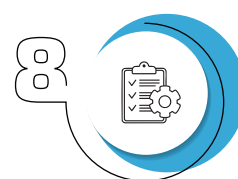

ICT Support & Managed Services

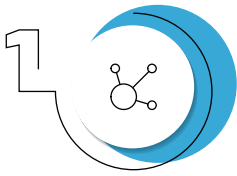

Smart & IoT Solutions

Power & Electrical Support for ICT

ICT Consultancy & Project Management

Network Infrastructure & Engineering

Designing and building secure, scalable, and high-performance networks.

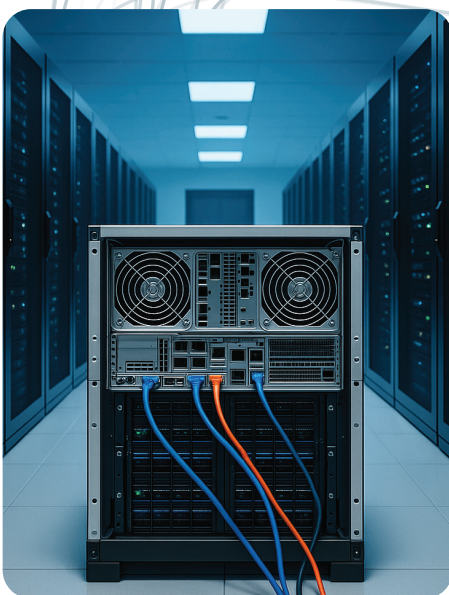

- LAN/WAN design, installation, and optimization
- Enterprise network configuration (routers, switches, firewalls)
- Fiber optic and structured cabling (Cat6/Cat6A/Cat7)
- Network testing, certification, and performance tuning
- Wireless network (Wi-Fi 6/6E) planning and deployment
- Network redundancy, failover solutions, and load balancing
- VPN solutions (IPSec, SSL, Site-to-Site)
- SD-WAN implementation and monitoring

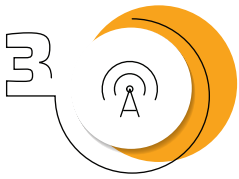

Data Centre & Server Solutions

Reliable data environments engineered for performance and continuity.

- Data centre design, construction, and commissioning
- Server installation and virtualization
- Storage solutions and data backup systems
- Disaster recovery and business continuity planning
- Data centre cooling, power distribution, and monitoring
- Server consolidation and optimization

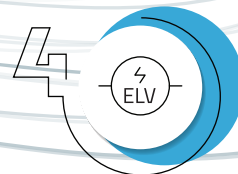

Telecommunication Systems

Advanced communication systems for seamless voice and data connectivity.

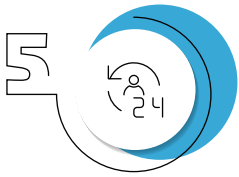

- PABX / IP-PBX installation and integration
- VoIP telephony solutions
- Intercom and internal communication systems
- Fiber-to-the-home (FTTH) and FTTX implementations
- Optical fiber splicing, termination, and testing
- Microwave and wireless backhaul link setup
- Telecom tower installation support and equipment integration
- BTS support services

Extra Low Voltage (ELV) Systems

Integrated ELV solutions for safety, security, and smart operations.

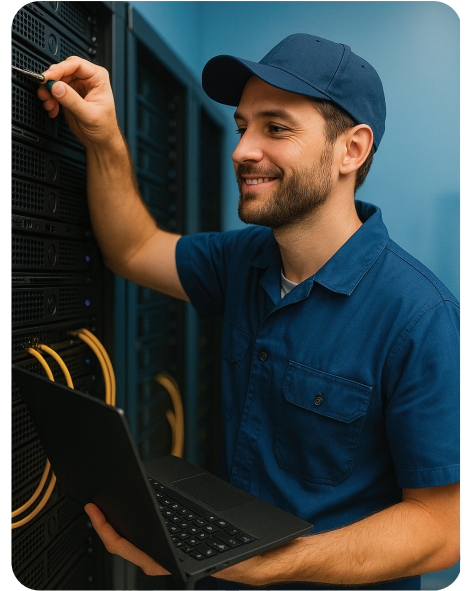

- CCTV surveillance and monitoring solutions
- Access control and biometric attendance systems
- Public Address (PA) and voice evacuation systems
- Fire alarm system installation and integration
- Audio/video intercom systems
- Structured cabling for all ELV services

ICT Support & Managed Services

Comprehensive maintenance and 24/7 support for mission-critical systems.

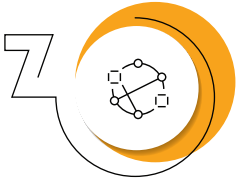

- Annual Maintenance Contracts (AMC)
- 24/7 technical support (onsite & remote)
- Preventive and corrective maintenance
- Hardware troubleshooting and replacement
- Network and system health monitoring
- IT asset management and documentation

Smart & IoT Solutions

Intelligent automation and IoT technologies for modern infrastructures.

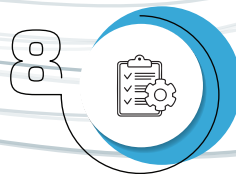

- Smart building automation
- IoT device integration for monitoring and control
- Smart lighting and energy management
- GPS and asset tracking solutions
- IoT security systems

Power & Electrical Support for ICT

Specialized power and electrical integration for ICT and telecom systems.

- UPS installation, maintenance, and battery replacement
- Power cabling and distribution for ICT rooms
- Generator integration with IT loads
- Earthing, grounding, and surge protection for telecom systems

ICT Consultancy & Project Management

Expert guidance from concept to commissioning for complex ICT projects.

- ICT feasibility studies and requirement analysis
- Detailed solution design and BOQ preparation
- Technical documentation and project reporting
- Vendor evaluation and technical advisory
- Project supervision, testing, and commissioning
